1963 Show Dates Are Set

Harrisburg, Jan. 9— Dates for the 1963 Farm Show were set today by the Farm Show Commission for January 7 to 11.

Ordinarily the Farm Show opens the second Monday in January, as it did this year. Next year's switch to the first Monday was occasioned, as explained by H. R. McCulloch, commission secretary, by the 1963 gubernatorial inaugural.

The State's administrative code stipulates that its governors must be inaugurated "the third Tuesday of January" immediately following their election. Next year the third Tuesday, January 15th, comes in the same week as the second Monday, January 14.

To avoid a conflict with the inaugural ceremonies, next year's Farm Show will forego its usual "second Monday" opening, and move up to the first Monday. That

Larson Named Extension Director Replaces Albrecht At Penn State

Dr. Russell E. Larson, professor of horticulture, and head, department of horticulture, at the Pennsylvania State University, today was named associate dean of the College of Agriculture and home economics extension.

He succeeds Dr. H. R Albrecht, former associate dean and director of extension, who resigned as of Dec. 31 to accept the presidency of North Dakota State University.

DR. LARSON

and another 150 technical and clerical personnel.

As director of extension, Dr. Larson heads a professional staff of nearly 400, including specialists, county agents and extension home economists in the counties,

Dr. Larson has served on the Penn State faculty since 1944 when he was named assistant professor of plant breeding. In 1952, he was chosen as head of the department of horticulture and

Frey Has Top Cow In DHIA For Third Consecutive Month

For the third consecutive month cows in the herd of J. Mowery Frey, Jr have been in the top three in the Red Rose Dairy Herd Improvement Association records.

A Registered Holstein in the Frey Herd at Lancaster R7 had the highest completed lactation during the month of November, according to figures released this week.

"Echo" produced 21,743 pounds of milk and 993 lbs. of butterfat in 305 days. She had a 4.6 per cent test.

The second high lactation was completed by a cow in the herd of Everett R. Newswanger, Kinzers R1. This registered Holstein had 16,083 pounds of milk with 806 pounds of butterfat and a 5 0 per cent test.

No other cow in the association had over 800 pounds of fat in the year ending in November however three other cows did have more than 700 pounds Another cow in the Frey herd had 718 pounds of butterfat in 21,108 pounds of milk with a 3 4 per cent test; A registered Holstein in the herd of Edwin J. Landis made 748 pounds of butterfat in 17,876 pounds of milk. C. Richard Landis had one Holstein that produced 733 pounds of fat in 21,487 pounds of milk

The 25 registered Holstein cows in the herd of Leon W Hess, Gordonville R1, had the high butterfat average for the month. Each of the cows milked 1,367 pounds of milk with a test of 4 2 per cent for an average of 58 lbs. of butterfat for each cow.

Second high average was made by the herd of Paul B. Zimmerman, Ephrata R1. The 26 registered Holsteins produced an average of 1404 pounds of milk with a 4.0 per cent test for an average of 56 pounds of butterfat per cow.

The herd of Holsteins belonging to Robert Kauffman, Manheim R1 had a 53 pound average. Park H. Ranck milked 52 pounds of butterfat from his registered holsteins while J. Mowery Frey, Jr. and Jay E. Landis each had 51 pounds from each of their cows. The herd of Elam P. Bollinger made an average of 50 pounds of butterfat per cow during the month

State Assn. Farm Women Elect Countian

Harrisburg — Mrs. Abner Risser, Bainbridge R1, Lancaster County, is the newly elected treasurer of the Society of Farm Wamen of Pennsylvania. She succeeds Mrs. Francis Liskey, of Germantown Pike, Collegeville, Montgomery County.

Mrs Francis Smith, Penn Run, R1, Indiana County, was elected director to succeed Mrs. Milton Eberly, Elizabethtown R3, Lancaster County.

Mrs. Edward Moyd, Stoystown R3, Somerset County, will serve the second year of her three-year term as president.

Other officers for 1962 are· Mrs. Elmo Mentzer, Carlisle R3, Cumberland County first vice president; Mrs. Horace Meyers, Shirleysburg, Huntingdon County, second vice president; and Mrs. Joseph E. Whitaker, Halifax R2, Dauphin County, secretary.

Farm Show Exhibitors Return With Many Honors

Lancaster County Exhibitors at the Pennsylvania State Farm Show brought home a fine array of ribbons, banners, trophys and honors this week.

Championships in Ayrshire bull and 4-H Ayrshire females, corn, Spotted Poland China swine, Belgian Horses and carcass lambs, and a clean sweep of the tobacco show will give Garden Spotters something to talk about for many weeks.

One disappointing spot in the show was the showing made by the 4-H baby beef club steers. Not one steer from the Red Rose Club was in contention for either top prize. A couple of second place weight group prizes was the best any of them could do as the first white Shorthorn Grand Champion in the history of the show walked away with the banner. Edward Rishel of York showed the Grand Champion while his brother William had an Angus in the Reserve spot.

A few highlights of the week-long extravaganza came to farmers and their children from Lancaster County.

R. Edwin Harnish of Christiana showed his four-year-old Ayrshire cow to her fourth consecutive grand championship in 4-H competition. Masonic Home Farms, Elizabethtown had the Grand Champion bull

Paul Trimble, son of Mr. and Mrs. Daniel Trimble of Quarryville R1, took the 4-H corn exhibition title for the fourth time. His brother Donald, was named Holstein Boy of the Year by the state association.

C. Warren Leininger, of Denver R2, brought home another Grand Championship banner for his Spotted Poland China Gilt. Martin Wenrich of Denver R2 showed the champion Hampshire gilt in FFA competition.

Reserve Champion stallion in the Belgian breed was shown by Elmer Lapp, of Kinzers R1.

Willis Hackman of Elizabethtown R3, kept Lancaster County in the Guernsey competition and Glenn Musser of Mount Joy did the same in Holstein judging, but neither managed to garner a championship.

We regret that space requirements prevent our printing all placings from the county, but following are the first five placings in the agricultural classes at the show.

TURKEYS

LARGE TOMS — 3, Harry Lamparter, Mountville.

SMALL TOMS — 1, Harry Lamparter.

LARGE HENS — 1, Harry Lamparter.

HONEY

Open Classes

WHITE EXTRACTED HONEY — 6, J. M. Shank, Lancaster; 8, J. B. Lapp, Bareville R1.

LIGHT AMBER EXTRACTED HONEY — 5, Robert M. Landis, Lampeter.

COUNTY EXHIBITS — 1, Lancaster County Beekeepers Association.

4-H Classes

WHITE EXTRACTED HONEY — 10, E Daniel Hershey, Lititz R2

LIGHT AMBER EXTRACTED HONEY — 3, Jay Foreman, Manheim

New Holland

Steers Are $1.00 Higher

Slaughter steers gained 75 cents to 1.00 per hundredweight over the previous week at the January 11 sale at New Holland. Cows were fully steady and bulls were steady to 25 lower. Receipts included 1078 head of cattle.

Choice and prime slaughter steers weighing 900-1,200 pounds brought 28-28.85. The bulk of the choice were 26 to 27 25 for the 950 to 1,350 pound weights with several lots going to 27.35 to 27.75. Good to low choice brought 24-26.25 with standard at 22-24.

Cutter and utility cows made 16-17.50 with canners and low cutters at 14.25 to 16 and shelly canners down to 12.

Cutter and utility bulls were 20-23.50. A few lots of good and choice feeder steers at 733 to 1,025 pounds brought 23-24.75.

Calves: 225. Vealers were 1.00 to 2.00 higher as good and choice made 32 to 39. Choice and prime were 39-45 with a few odd head to 46 and 48. Standard and low good were 26-32 and utility made 21-26.

Dairy cattle at the January 10 auction at New Holland sold at about steady prices as 95 cows, 13 stock bulls and eight stock heifers crossed the block.

Fresh Holstein cows sold at $300 to $420 while Guernseys changed hands at $175-$280 and other breeds brought $175-$290. Stock bulls brought $110-$185 and stock heifers were $75-$135.

Draft horses and mules were back on the market at the January 8 sale at New Holland. 263 head were in the run.

Mules by the pair brought $300-$530. Pony mares ranged $75-$135 while geldings made $40-$90 each Riding horses were $100-$255 and driving horses brought $110 to $250. Killers were 8-8½ cents per pound.

KIRKWOOD FEED & GRAIN

KIRKWOOD, PENNA. Ph. LAmbert 9-2132

Growing HEIFERS and Dry COWS need

Wayne FITTING RATION

Wayne Fitting Ration produces rugged, full-bodied heifers that are thrifty and ready to breed at an early age. Fitting Ration also helps the dry cow replace flesh lost during the previous lactation and puts her in top condition to start the new milking period at a high level of production.

Bred heifers and dry cows must receive a highly nutritious ration in order to build the unborn calf. Wayne Fitting Ration supplies the vitamins, minerals, proteins and energy needed to drop thrifty strong-boned calves.

In a test at the Wayne Research Farm, well fitted Holsteins produced 1720 lbs. more milk and 83 lbs. more fat then when not properly fitted.

Prices, Volume Good

Broiler prices continued about steady at the January 11 auction at the Poultry Center at 76,800 head in 18 lots crossed the block at prices of 16.5 to 17.4. Some grower resistance was noted as six lots failed to sell at bids of 16 to 16 8.

Four lots of 4,900 pullets sold at 21 5 to 22 4 while a lot of 800 roasters brought 22.1. Three lots containing 4,250 leghorn fowl made 8 1 to 8.6 while one lot of 500 heavy fowl brought 18 9.

The sale offered 130,950 head in 36 lots and sold 27 lots containing 87,250 head.

Following is the complete sale with lot number, seller, grower in parenthesis, amount and breed, age in wks. and days, buyer and price.

Delmarva-Georgia

Prices Average 1/4 Cent Higher

Broiler prices averaged approximately ¼ cent higher during the 24 hour period ending 10·30 Friday morning. Delmarva reported prices of 15 9 to 17.3 at farms for 760,000 head during the period.

A good demand was noted for the moderate offerings with no eastern shore plants operating Saturday Estimated slaughter for the weekend was 727,000 head compared with the 833,000 head last weekend.

The Delmarva broiler-feed ratio for the week ending on January 5 was steady with the previous week at 3 6 Broilers averaged 16 69 compared with the 16 82 the previous week and mash cost the grower $94 03 per ton compared with the $93 71 the previous week.

The ratio for the comparable week a year ago was 4.0 when broilers averaged 17.43 and mash cost $88.08 per ton.

Water is not converted into body fat.

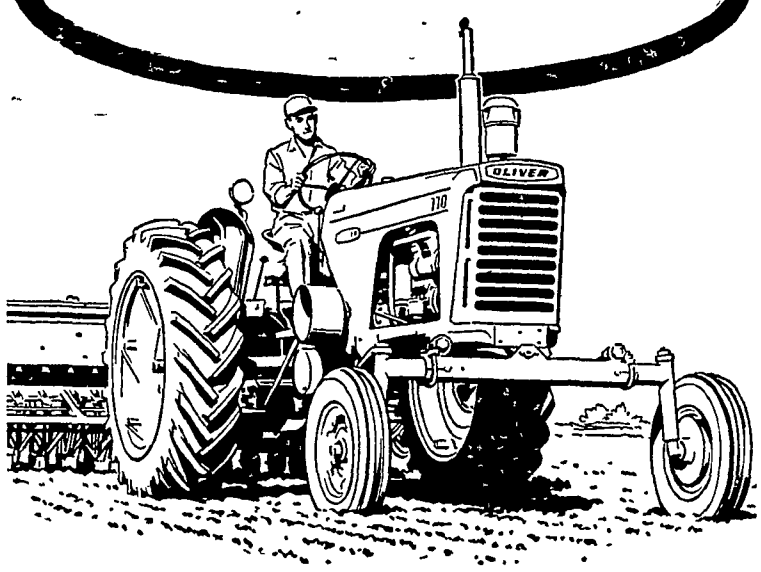
Ready to Go!
Peppy OLIVER
3-4 Plow 770



All new.. and all set to go, ready to turn out more work in a day and to make it easier for you.

First of all, there's more horsepower in this new 770, coming from a deeper-breathing, higher-speed engine. Add the new Power-Booster Drive and you get 12 forward speeds, almost one-third more pull for heavy going at the touch of a lever—on the go.

Hook a new 4-bottom semi-mounted No. 5440 plow to Oliver's new Power-Traction Hitch and forget about the tough spots. Your 770 just bears down, steps right through at full speed. Put on Powerjuster wheels; let the engine change tread. And make driving a pleasure with power steering.

This is only the beginning. There's a lot more to see in the new 770. You'll want to feel this snappy power, too—in all the exciting new ways.

FROM WHERE WE STAND -

Congratulations! Win, Lose or Draw

Farm Show has come and gone for the 46th time. Lancaster County farmers and homemakers have returned to the Garden Spot with their usually fine array of ribbons and trophies, and we are all proud once again to be a part of such a fine agricultural society.

We would like to add our congratulations to the winners. We know they have received the plaudits of many, and they justly deserve the honors accorded them.

But what of those who returned home with only experience and heartaches for their pains in preparing and exhibiting their treasures.

We would like to say a word of encouragement to those who "also ran". Particularly are we thinking of the 4-H and FFA exhibitors who did not win.

Perhaps it is cold comfort, but then perhaps it is better than no comfort at all, to realize that it would be a pretty slim show if only the winners exhibited. If only those exhibitors who knew for certain they did not stand a chance of finishing out of the money, were to take their products to the show, the judging rings and exhibit halls would be empty.

Perhaps it is a little bit corny, but there is an old saying, "The big apples wouldn't be at the top of the basket if it weren't for a lot of little ones holding them up."

Sometimes the little apples end up making the best pie because being at the bottom of the heap that way gives them time to ripen and mellow before their time for greatness finally comes.

Therefore, we say, It is great to win, but it is no disgrace to lose if you did your best.

At least that's how it looks from where we stand.

Prepare Food For Survival

Reliable figures indicate over 40 per cent of our food comes off the farm each day. Therefore many foods are delivered to stores two and three times a week.

In the event of a natural disaster or nuclear attack Civil Defense authorities can declare a moratorium of at least five days on all wholesale food supplies.

Explosions, snow storms, floods, tornados, hurricanes and blizzards yearly show us how some part of the country has to rely upon emergency food supplies to survive.

While rural areas are often better equipped to survive in times of emergency than are the urban centers, there is a growing interdependence of all segments of the society.

Farm families depend more and more on the grocery store for their food products. More and more farmers are becoming dependent on transportation to supply fresh foods when they are needed.

This is a situation to be expected in this day of specialization, and we have no desire to discredit the system. However, we do think more farmers ought to give some thought to providing emergency food supplies for their families.

Emergency food does not have to be an expensive or exotic collection, but some thought should be given to providing maximum quality for a minimum of storage space and adequate nutritive value balanced among water packed, liquid and solid foods.

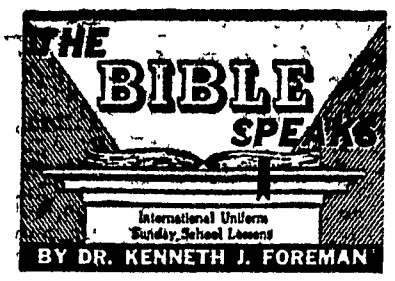
If it became necessary for you to spend two weeks in a fallout shelter, what would you eat—survival rations, your normal food?"

These questions are in the first paragraph of a leaflet called "Eating To Survive. Without resorting to scare tactics, its writers, J. F. Bauerman and H. E. Neigh of the extension staff at The Penna. State University , outline some of the steps a family can take to prepare for an emergency, natural or man-made.

The last paragraph explains their reason for writing the article. It says, "In case of emergency the food in your home will have to do; perhaps for as long as two weeks or more. Now's the time to do some serious planning."

We argee.

At least that's how it looks from where we stand.



Bible Material: Exodus 20:1-3; Deuteronomy 6:4-9; Matthew 6:24; John 14:1-11.
Devotional Reading: John 17:1-6.

One God

Lesson for January 14, 1962

IT is easier to believe in many gods than in one. If you don't think that is true, take a look through the religions of primitive peoples. No human beings anywhere, no matter how primitive, are without some kind of religion; but the human race did not arrive early at the truth that there is only one true God. But they did arrive. In Islam, in Judaism, and in Christianity, men have stood for their faith that God is One, and beside him there is no other. Nothing the Christian church believes about the Trinity abolishes this basic truth, that there is one God only. Father, Son and Spirit are not three Gods. The Holy Trinity is not a celestial committee. Christians believe that there are different ways by which we meet God, different ways of His revealing himself; but the High God, the Creator of all, and Christ our Savior, the "Word made flesh," and the Spirit of God in our hearts, are all the same God.

Dr. Foreman

One God of time and space

Theologians seeking ways of expressing the majesty of God sometimes use the expression, the God of time and space. That expresses a tremendously important truth about God, a two-sided truth. One is that no matter how far backward or forward you may go in time, God is always God. He does not become God, or cease to be God, or become (so to speak) a part-time or retired God. Sometimes human beings' thoughts of God are dim; but He is ever the eternal flame. The other side of the truth is that wherever you go in space, you are always in the domain of the one, the only God, who is always the same. This not only means that God is sovereign over this earth and whatever creatures live here; to the remotest star He is still the same, the only God. The idea that we could take a spaceship and sail beyond the reach of God is just as absurd as it always was.

One God of the world and you

Think about the world around you—steel and asphalt, grass and trees, stars, germs and atoms. Does it seem hard to believe that the God who made these things made you? That the God who is concerned for the mighty suns and vast whirlpools of stars millions of light-years away,—that He can be interested also in you? Even some Christians have felt as if there must be a difference between the God of nature and the God of grace, the God of nature and the God Jesus revealed to us. But there is no difference. Neither the God of grace nor the God of nature is greater than the other; for they are one and the same God. The same divine Mind that devised this universe also devised you. It serves his purposes,—the stormy wind fulfils God's will, as the Hebrew psalmist wrote. God made the earth and seas for a reason, He made the stars for a reason, He made you for a reason. What all His reasons are is His own secret. That a comet's return may be predicted, is a pointer to God. That in the midst of grief there comes a healing peace, is a pointer to God. That a man feels in his heart of hearts, I ought, is a pointer to God. Not to three Gods but to the same, the only God.

From birth to death

As we live and grow, our ideas about God may greatly change. Perhaps at first we think of Him as a kind of family God, we think of Him as the God of our church. He may be in early days a God we think about only when we say "Now I lay me . . . " at bed-time; then later—for some great souls this is true—God looms so large that He is our constant companion, and the thought of Him is back of every thought. But He does not grow, it is we who grow. The road of mankind is strewn with the bodies of dead gods, someone has said. Not at all; the true God never perishes. The dead bodies are ideas, notions, images in the mind; they are not gods. Now each man's personal road of life ought to pass on beyond the graves of the idols He has made in His mind. The God who would not let us get hurt, the God who let us do as we please, the God bent on revenge, the God of our nation against the world—these Gods do not exist except in people's minds. The one true God is the one revealed by his Son, who from the Beginning was with God, and was God.

RURAL RHYTHMS

Five Day Cow

I long for a cow of modern make
That milks five days for leisure sake,
That sleeps on Saturday, snores on Sunday,
And starts afresh again on Monday.

I wish for a herd that knows the way
To wash each other day by day,
That never bothers to excite us
With chills or fever or mastitis.

I sigh for a new and better breed
That takes less grooming and less feed,
That has the reason, wit and wisdom
To use the seat and flushing system.

I pray each week end long and clear,
Less work to do from year to year,
And cows that reach production peak
All in a five-day working week.

I look for officials by the mob
To guide the farmers at their job
And show these stupid breeders how
To propagate a five-day cow.

—Anonymous

=★= LETTERS To The Editor

Reader Likes Bible Column

Editor, Lancaster Farming
Dear Sir:

I want to commend you for including, "The Bible Speaks" in your paper. Possibly too often folks forget to be thankful for articles and publications such as this Hoping you continue to print Dr. Foreman's message on the Sunday School Lessons. This is what we need — "At least that's how it looks from where we stand".

Sincerely,
Mrs. B. Landis
Lancaster R3

GET EWES READY

A little attention to the ewe flock now may prevent costly diseases and parasite losses this winter says Dr. Samuel B. Guss, Penn State extension veterinarian. He suggests worming the flock, examining winter feeding & watering facilities, spraying to eliminate losses from external parasites, cleaning lambing pens, checking housing and bedding, and setting aside a month's supply of the best hay to feed ewes in the period just before lambing.

If all the water from all the fresh water lakes of the world should be emptied into the ocean, it would raise its level about two inches.

● Dr. Larson

(From page 1)

last March was named chair man of the Division of Plant Sciences and Industry in the College of Agriculture.

Since 1958 he has served as consultant to the office of Experiment Station, U. S. Department of Agriculture. From July to December, 1960 while on leave from Penn State, he served as scientific aide to the Mexican agriculture progam of the Rockerfeller Foundation. He spent most of the time in Mexico collecting specimens of criollo tomatoes for use in plant breeding research.

Dr. Larson, 45, is married to the former Margaret A Johnson, of Minneapolis, Minn. and they have two daughters, Gayle Margaret, a junior at Penn State; Beverly Jean, a junior in the State College High School, and a son, Russell Troy, a student in seventh grade.

Now Is The Time . . .

BY MAX SMITH

MAX SMITH

TO BUY CERTIFIED SEEDS—One of the best ways of actually getting what you really want is to plant certified seed. In order to have some assurance of good germination, free from weeds, and the best yield ability of certain varieties, it is strongly recommended that the best seeds be used. In most cases with the buying of seeds, you get in proportion to what you pay.

TO CUT DOWN ON FEED WASTE — In many cases of livestock feeding where the self feeders are used, there is too much waste of valuable feed. In some research studies with hog feeding it was found that many feeding operations lost from 3 to 7 percent of the feed. This is not the way to make a net return on any feeding operation. Feed is expensive and one of the objectives should be to get a good feed conversion into meat or milk. Local feeders are urged to inspect their feed operations in order to reduce the waste of feed.

TO PREVENT WOOL BLINDNESS—Experienced shepherds will trim the wool from around the eyes of their sheep at this time of the year. This is quite often necessary in some breeds such as Shropshires or Southdowns where there is a lot of wool about the head. In other breeds such as Cheviots and Suffolks this will not be necessary. If the wool has grown tight around the eye opening, it is very difficult for the sheep to see where to go and to see feed and water. Some attention in these cases will produce more profit from the flock.

TO PREVENT SNOW MOLD IN LAWNS—Snow mold is a fungus that thrives under conditions found under snow cover. Mold appears in gray or dirty white patches a few inches to a foot or more in diameter after the snow melts. This condition may be prevented by spraying with chemicals containing calomel, corrosive sublimate, or thiram-mercury compounds; the rate is 3 ounces in 3 to 5 gallons of water per 1000 square feet of lawn between snow covers. During 1960-61 and now so far this 1961-62 winter there has been snow cover a large percentage of the time and some trouble may exist.

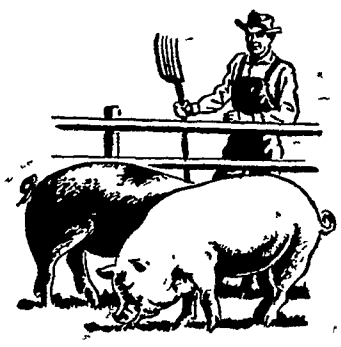
HOG RAISERS—



Faster, Better Starting

IS NOW POSSIBLE WITH:

TYLAN™*

*(TYLOSIN TARTRATE)

— IN —

Green Pastures No. 12 Pig Starter Pellets

Tylan is a new agricultural antibiotic available as a GROWTH STIMULANT FOR SWINE.

Collected as a soil sample by a medical missionary in Thailand, it showed promise for agricultural use and indicated exceptional activity against several organisms which attack swine and poultry.

Lilly research trials proved TYLAN to be VERY ACTIVE AND BENEFICIAL FOR SWINE.

In these trials for the period up to 40 pounds, pigs showed

22% Faster Gains

on

4% Less Feed

Trials were encouraging.

NOW —

The Acid Test.

TRIALS ON THE FARM under supervision of Lilly research personnel from the Greenfield Research Laboratories, involved approximately 1000 hogs.

In these on-the-farm trials the average increase in daily gain of hogs up to 40 pounds, fed a basal ration plus TYLAN, compared with hogs fed only a basal ration was

17% BETTER DAILY GAIN

and

7% SAVINGS IN FEED

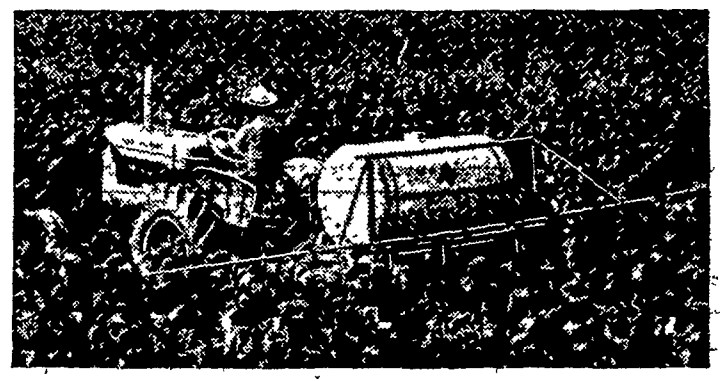
NEW SPRAYERS . . .



WITH BIG ACREAGE DURABILITY

Here is a completely new Allis-Chalmers sprayer line, built to withstand chemical corrosion and hard service. Booms, up to 33 feet wide, are made of special resistant alloy aluminum with tough chip- and dent-proof nylon in nozzle eyelets and caps. Double nylon roller pumps are offered in two sizes. A 6-roller model develops up to 250 pounds pressure. An 8-roller model, with pressures up to 350 pounds, provides ample capacity to handle long booms and to provide agitation for wettable powder sprays. Allis-Chalmers models include the heavy-duty trailer type shown above, rear-mounted boom sprayer, a broadcast model, and a tool bar-carried unit.

See the difference that Allis-Chalmers quality now brings to spray equipment.

Variety Meats - Variety Meals

by Mrs. Richard C. Spence

If for some reason or other you have avoided using some of the variety cuts of meat, why not change your menus these winter days with some of the following recipes

These meats are rich in food value as well as being economical to serve. Why not try liver prepared as in the following two recipes?

BEEF LIVER WITH APPLES AND ONIONS

1½ pounds beef liver, sliced ¼ inch thick
6 slices bacon, cut into small pieces
½ cup flour
2 teaspoons salt
1 teaspoon thyme
⅛ teaspoon pepper
2 tablespoons lemon juice
2 medium red skinned apples, diced
1 medium onion, sliced
2 tablespoons chopped parsley

Pan-fry bacon until partially cooked Combine flour, salt, thyme, and pepper. Dip liver slices into the flour mixture Brown liver on both sides in the bacon drippings Combine lemon juice with apples. Add apples, onion, and parsley to skillet. Cover Cook over low heat 30 minutes.

* * *

LIVER WITH TOMATO-OLIVE SAUCE

1 pound sliced beef liver
Flour
3 tablespoons fat
1 tablespoon flour
1 pound can tomatoes
1 teaspoon salt
½ teaspoon sugar
⅛ teaspoon black pepper
¼ teaspoon basil
Small piece bay leaf
¼ cup sliced stuffed olives

Dip liver into flour, then brown in hot fat in a skillet. Stir 1 tablespoon flour into tomatoes Add tomatoes, salt, sugar, pepper, basil, bay leaf, and olives to browned liver Stir to blend seasonings Cover and simmer slowly for 20 minutes Serve hot

* * *

FRESH TONQUE WITH MUSTARD SAUCE

1 beef tongue, 2 to 5 lbs.
Cold water
1 small onion, sliced
1 tablespoon salt
10 whole black peppers
1 bay leaf
Mustard Sauce*

Place tongue in a large saucepan and cover with cold water. Add onion, salt, black peppers, and bay leaf. Bring to the boiling point, reduce heat, cover, and simmer until fork-tender, about 1 to 1¼ hours per pound.

Remove tongue from water. Cool slightly. Cut off bones and gristle at the thick end of tongue. Slit skin from thick end to tip on under side. Use a paring knife to loosen the skin at the thick end. Pull and peel the skin off from thick end to tip. For hot service, slice tongue ¼ inch thick. Cut cold tongue thinner. Serve hot or cold with Mustard Sauce.

*MUSTARD SAUCE

2 tablespoons butter or margarine
2 tablespoons flour
1⅓ cups milk
⅓ cup prepared mustard
2 teaspoons sugar
½ teaspoon salt
1 teaspoon Worcestershire sauce.

Melt butter or margarine in a saucepan Stir in flour Add milk and stir constantly until mixture thickens. Stir in mustard, sugar, salt, and Worcestershire sauce. Reduce heat and simmer very slowly 10 minutes. Serve warm. Makes about 1½ cups.

* * *

SCRAMBLED BRAINS AND CHEESE

1 set calves brains (about 1 pound) fresh or frozen
2 tablespoons butter or margarine
8 eggs
¼ cup milk
½ teaspoon salt
⅛ teaspoon pepper
½ cup shredded American cheese
6 slices buttered toast
2 tablespoons chopped parsley

To cook Brains: Soak brains in 1 quart water and 1 tablespoon salt for 15 minutes. (If brains are frozen, let thaw in water.) Drain brains and place on paper towels. Using tip of paring knife and fingers, lift and peel off thin membrane covering. Cover brains with cold water and add 1 teaspoon salt. Bring to the boiling point, reduce heat, and simmer 15 minutes. Drain and rinse with cold water. Drain thoroughly.

To Prepare Scrambled Brains and Cheese: Chop cooked brains and brown in butter in a skillet. Add eggs beaten with milk, then salt, pepper, and cheese. Cook, stirring occasionally, until set. Spoon onto toast and sprinkle with chopped parsley. Serve hot.

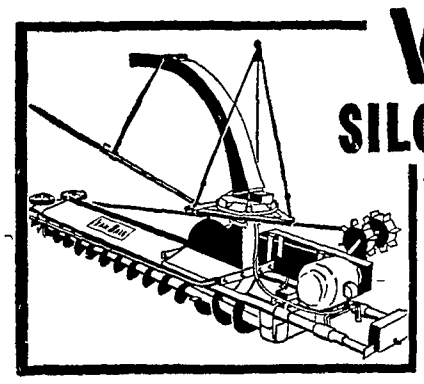
Complete automatic feeding for
DAIRY COWS and CATTLE!

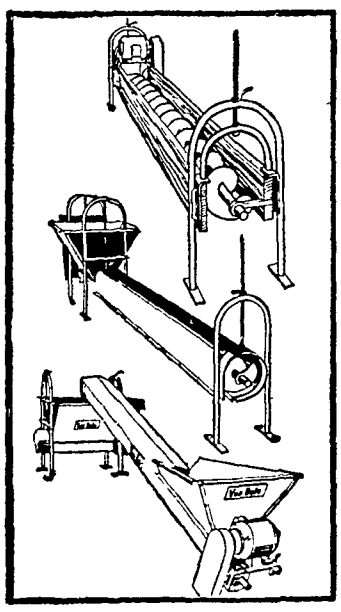


VanDale
SILO UNLOADERS

Double augers deliver more silage per minute even when silage is deeply frozen . . . and at a lower operating cost. Patented V-paddle impellers *throw* . . . not blow . . . silage down chute. Adjustable drive hubs give positive traction in all types of silage.

Three-point suspension keeps unloader level at all times.

Plus a complete line of bunk feeders to meet your exact needs



Straight-out Auger Feeder

With VanDale units you can custom build the bunk feeding set-up to fit your needs. Drive section includes hopper, drive assembly and 10', high capacity 9" auger. Additional auger sections are in 10' units and are easily coupled.

Feed-R-Flo Bunk Feeder

The new, all metal complete feeder. High capacity 9" auger rotates within tube. Gives all-weather protection, even feed distribution, and lower operating cost.

Conveyor Trough

An important link in automatic feeding. Positioned below silo chute, the VanDale conveyor trough carries the silage to the bunk feeder Primary section includes hopper, drive assembly, and 10', 9" auger. Additional 10' auger sections may be added.

See us for modern automatic feeding equipment

OLD ENGLAND STEAK AND KIDNEY PIES

1 pound round steak, ¾ inch thick
1 beef kidney, about ¾ pound
2 medium onions, chopped
¼ cup melted fat
1 cup water
1½ teaspoons salt
⅛ teaspoon pepper
1 teaspoon Worcestershire sauce
2 small potatoes
2 tablespoons flour
¾ cup water
Pie Crust

Cut steak into one inch squares. Split kidney lengthwise into halves. Remove all fat and white veins. Soak kidney in cold water for 30 minutes. Drain and cut into one inch cubes. Brown steak, kidney, and onions in fat in a heavy kettle over high heat. Stir often to brown evenly. Add water, salt, pepper and Worcestershire sauce. Cover and simmer over very low heat until steak is tender, about 1¼ hours.

Pare potatoes and cut into ¾ inch cubes. Cook in water 10 minutes or until barely tender. Drain. Mix flour and ¾ cup water. Stir into cooked meat mixture. Cook and stir until broth thickens. Reduce heat and simmer five minutes. Broth should be of gravy consistency. If it is too thick, add more water as needed. Stir in cooked potatoes. Prepare individual pie shells in 5 inch foil pie pans. Pour in meat-vegetable filling and cover each pie with top crust. Crimp edges. Cut slits in tops. Place pies on a baking sheet and bake in a hot oven (425 degrees) 30 minutes or until crust is brown. Let pies cool 5 minutes before serving. Steak and Kidney Pies may be frozen unbaked and kept up to one month at 0 degrees or lower. For freezing, let filling cool before spooning into pie shells. Bake frozen pies on a baking sheet in a hot oven (425 degrees) 40 to 45 minutes. Makes six 5-inch pies.

* * *

Modern packaging makes corned beef brisket a year 'round favorite. Pieces as small as 2 lbs. and as large as 5 lbs. are now available in vacuum - sealed, drip - free packages. The shopper may select a corned beef brisket with or without garlic added to the careful blend of spices used in the curing process. Easy-to-follow cooking directions are on each package Here are some recipes using corned beef that you might like to try.

CORNED BEEF WITH CHEESE DUMPLINGS

2 to 3 pounds corned beef brisket
2½ cups water
2 cups tomato juice
¼ cup vinegar
¼ cup chopped onion
1 tablespoon sugar
¼ teaspoon thyme

Remove corned beef from close-fitting transparent wrap Place meat in a large kettle. Cover corned beef with water, juice, vinegar, onion, sugar, and thyme. Cover and simmer until corned beef is tender, about 2 to 3 hours. Remove meat to platter and keep warm while dumplings are being made.

To Make Dumplings: Sift together 2 cups flour, 1 teaspoon salt, and 3 teaspoons baking powder. With fork or pastry blender, cut in two tablespoons shortening until mixture is the consistency of coarse corn meal. Add ¾ cup milk. Stir until just blended. Dip a tablespoon into the boiling broth, then into the dumpling batter and drop the batter into the boiling broth. Sprinkle with shredded cheese. Cover tightly. Cook over low heat for 20 minutes. Serve corned beef and dumplings hot.

* * *

CORNED BEEF WITH SAUERKRAUT AND DILL BUTTER

2 to 3 pounds corned beef brisket
4 cups water
1 tablespoon dill weed
1 pound can sauerkraut
¼ cup soft butter or margarine
3 tablespoons sauerkraut liquid
½ teaspoon salt
1 teaspoon dill seed
½ teaspoon dry mustard

Place brisket in a kettle and cover with water. Cover with tight-fitting lid. After 2 hours of simmering add dill weed. Simmer until fork-tender, ½ to 1 hour longer. Drain 3 tablespoons of liquid from sauerkraut to be used in dill butter. Heat sauerkraut. Cream butter until fluffy Stir the 3 tablespoons liquid gradually into the butter Add remaining seasonings Spoon seasoned butter over piping hot sauerkraut. 8 to 10 servings

* * *

CORNED BEEF CABBAGE CASSEROLE

3 cups ground cooked corned beef
1 head cabbage

● Variety Meats

(From page 7)

1¼ cups milk
½ cup uncooked rice
1 cup milk
¼ teaspoon pepper
¼ teaspoon ground marjoram
2 tablespoons brown sugar

Carefully remove 12 to 16 cabbage leaves from head Drop into boiling water, cover, and boil 5 minutes Line a 1½ quart casserole dish with the leaves, making about four layers Bring 1¼ cups milk to boiling point Add rice. Cover and cook over low heat until fluffy. Combine corned beef, rice, and 1 cup milk, pepper, and marjoram Add mixture to cabbage-lined casserole and sprinkle with brown sugar Bake in moderate oven (350 degrees) for 30 minutes Makes six servings

SALE REGISTER

Wed., Jan. 17 - 12:00 - Dispersal sale of 54 head Holstein dairy cattle and dairy equipment. By John R. Hostetter, owner. 2 mi S. of Fayetteville nad 2 mi. NE. of Duflield along Rt. 997. Ralph W. Horst, Auct.

Sat. Feb. 10—Closing out sale of 29 head of Registered Holstein dairy cattle, and a full line of equipment. By Carl G. Brubaker. One Mi. N. of Manheim just off Rt. 72 near Hernley's Church. Wolgemuth & Geib, Auct.

Sat., Feb. 17—Dispersal of 45 head of Holstein Dairy cattle and full line of equipment. By Donald Ober. 3 miles N. of Manheim along Rt. 72 near Elstonville. Wolgemuth & Landis, Aucts.

Red Rose Wis Leader Kathleen, a registered Holstein, owned by John W. Eshelman & Sons, Red Rose Research Center, Lancaster, produced 18,528 lbs. milk and 608 lbs butterfat in 365 days on twice daily milking as a 5-year-old.

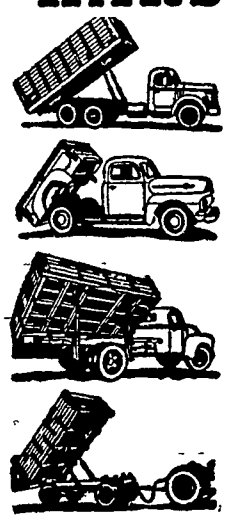
County Firm Has New Line

P. L. Rohrer and Brother, the well known farm seed firm of Smoketown has recently become a dealer for the Ortho line of Unipel pelleted fertilizers, it was announced today by Robert Free, the company's representative in this area.

Willis Rohrer, vice president of the firm, signed the contract to handle the line of chemical fertilizers marketed as tiny pellets of complete fertilizer or Ammonium nitrate.

WINNER OF THE FIVE ACRE CORN GROWING CONTEST in Lancaster County this year is Fred Frey, right, of Quarryville R2 Frey is accepting a plaque in honor of his achievement from A C. Biesiot, sales manager for Pfister Associated Growers, Inc The corn on which Frey produced an average of 170 2 bushel per acre was grown from PAG seed. Frey is a breeder of Purebred Angus cattle on Twin Oaks Farm in the southern part of the county

HARSH HYDRAULIC HOISTS



The 32 available models come to you with a wide range of lifting capacities ranging from 3½ to 20 tons for your truck, pickup, or trailer. The smooth, trouble-free action of a HARSH HOIST has a fast lifting time of from 12 to 160 seconds, which allows more time for actual hauling.

These hoists come to you at an average cost of only 16¢ a day as compared to the $10 - $15 a day you now spend to manually unload your truck.

Hydraulics Unlimited Mfg. Co.

To design and build a light-weight, low-coesting truck hoist suitable for all types of farm use, priced within the average farmer's budget was the aim of "Bud" Harsh when HYDRAULICS UNLIMITED MFG. CO. began operations. This hoist was built and is now in use throughout the nation.

The HARSH HYDRAULIC HOIST averages only $328.52 (including Federal excise tax) and maintains a low taxable weight which averages 273 lbs. These economical hoists are built for either back or side dumping, depending upon your need.

Save costly time and eliminate back-breaking labor by unloading with a HARSH HYDRAULIC HOIST engineered for economical, speedy, and durable farm use.

Successful Dairyman Says:

"Farm Bureau's DARI-PAK Program Right For Me"

Jacob S. Ober, Conestoga, R.D. 1, is feeding his entire herd of "20" Holsteins, Farm Bureau's 14% DARI-PAK Pellets.

He especially likes:

1. MILKMAKING POWER — a top milk producing ration!
2. FIRM PELLETS — few fines and they're really palatable!
3. GRAIN EXCHANGE — retail price for my grain!
4. BULK DELIVERY — convenient and saves labor, too.

GET THE EXCITING DETAILS of Farm Bureau's popular DARI-PAK Dairy Ration. Now available in 14% and 16% - - tasty Coarse-Texture or palatable Pellets. You'll like the many advantages offered by our complete dairy feeding program. The COWculator, miniature electronic brain, will accurately determine the Maximum Profit Feeding level for each cow in your herd - - takes the guesswork out of feeding.

START TODAY...FEED THE FARM BUREAU WAY!

Qualified FIELDMEN are anxious to serve and assist you in designing a PROFITABLE DAIRY FEEDING PROGRAM.

Consistent Top Egg Production from...

HUBBARD K-137 KimberChiks

LARGE CHALK-WHITE EGGS

K-137 Kimberchiks laid so many eggs and of such size that they had the **highest income producing ability** among the stocks entered in the 1959-60 Random Sample Tests, according to the U. S. D. A summary.

FIVE YEAR WINNER: K-137 Kimberchicks had the highest income over feed and chick cost in the California Random Sample Egg Laying Test for the five-year period from 1956-61, another indication of their consistent performance.
